

Oldbury Village Cinema Club.

NOTICE TO ALL MEMBERS.

Dear Members,

You may be aware that the Memorial Hall's Management are currently considering opening the facilities for use under current government Covid-19 guidelines. We at the OVCC, like other users, have been asked as to our intentions as and when the Hall opens.

Your committee has given a lot of thought and discussion to this matter. I must advise you, therefore, that we have decided not to commence OVCC activities for the time being. There are many reasons for this decision, and I am sure that you will appreciate most of them. However, should anyone feel they would like a more in-depth indication as to why we have taken this course of action then please feel free to contact me by phone and/or e-mail.

Naturally, we will be monitoring the situation from here on in on a constant basis and as and when we feel it appropriate to commence with film shows I will advise you all further.

Some of you may well be wondering about the membership fee that you have not been able to use over the last few months. Again, your committee has thought about this carefully and have come to a decision. You all know very well that the proceeds of the OVCC are, in some extensive part, given to the Hall either as a financial donation or more in terms of system improvements for hall usage by all parties. Indeed, I can tell you that the new acoustic panelling that we have planned has now been procured and will most likely be installed in the hall in the next week or so.

Our decision, therefore, is that we retain your subscription and put it towards funding for the hall improvements. I do hope that you approve of this action but if anyone feels strongly on the matter then please feel free to contact me with any objections.

As always, we will keep you advised on events as they change,

Ian Bell.

A handwritten signature in black ink, appearing to read 'Ian Bell'.
